

**We will never change our steadfast commitment to quality.**

## **LANI MONTHLY UPDATES**

**In May, Lortscher Animal Nutrition Inc. went through a Marine Stewardship Council Chain of Custody audit. We successfully completed the audit and received our certification in early June. With the continued demand for traceable, sustainably caught seafood products in pet food, obtaining this certification will allow Lortscher Animal Nutrition Inc. to procure certified fish meals for our clients.**

## **July Market Updates**

**[CLICK HERE](#) for market updates.**

## Annual Picnic

Every year the owners and employees of Lortscher's provide a picnic for the community. And every year it is a success!

### **Lortscher's Offers New and Exciting Services**

With the addition of our Brownwood, Texas facility, we are expanding our capabilities providing novel solutions to our pet and animal health co-packers and partners. Contact us today to learn how LANI can help you reach your goals!

---

## **FEATURED EMPLOYEE OF THE MONTH**

**George Wykert is our featured employee for the month of July! George is our IT Administrator and has been with Lortscher's for over 8 years. George handles all of the computers, printers and communications for the 6 companies, covering 5 locations in 3 states. Chances are if something has an electronic component, George is involved!**

**George appreciates the family style atmosphere while at work. He also likes that the management team are "dreamers" as they are always looking for better and more cost-effective ways of improving, thus keeping George on his toes!**

**He has several fond memories during his time at Lortscher's but the one that sticks out the most is when a tornado hit the outskirts of Bern. The next day those able to come into work loaded into trucks and went out to help those who were hit by the tornado. The entire community rallied together to help those in need.**

**George has a passion for animals. He has a dog, Mongo, and a cat, Frank (after Frank Sinatra). He did recently lose his "favorite", an Australian Shepard mix, Astra. She grew up in a rough environment, but luckily George and his family rescued her and cared for her until her passing (she was approx. 17 years old).**

**In George's spare time he plays guitar/music as well as studies**

true crime cases. He also enjoys spending time with his wife Patty, his four kids (Jessica, Kerya, Nroh, and DJ) as well as two grandchildren (Alice and Greydon). George and Patty love to travel and have visited 26 of the lower 48 states. They really enjoy the warmth of the south, and when the timing is right they plan to live on the Gulf Coast of Texas.

Another love of George's is music. He has ten guitars and in his free time he records in his studio and also plays live shows either solo or with the Edies. Being artistic runs in the family. George has relatives who have played for country musicians, are singers, have published poetry, as well as produced TV commercials.

Thank you for all that you do, George! We appreciate your hard work and commitment to the company!
